

Call for Presentations

GLOBE Program Europe and Eurasia Virtual Meeting

The **2021 Europe and Eurasia Meeting of the GLOBE Program** will be held **online on October 4-8**.

We would like to have a strong community involvement – teachers, students, scientist and other GLOBE friends. Contribute to the online sessions by presenting input from your country:

- Prepare a **max. 5 min-long input in English (presentation, slideshow, Padlet, StoryMap)**
- **Stick to the topic:** highlight the aspect of “**Benefits for the Environment**” (A) or “**Collaboration**” (B), or “**Skills and Competencies**” (C) - depends which one you selected.
- **Follow the good practice format**, so that the audience can learn from your experience (what, why and how you did it, who was involved, what was the impact).
- **Submit an abstract of your input through an [online form](#) by July 15 .**
- **Be available online on October 5, 6 and 7 afternoons (Prague – CEST)** to present your input. The exact time of your session will be announced 2 weeks before the meeting.

Participants/Schools presenting at the GLOBE Regional Meeting will receive a **GLOBE certificate**.

Topics

A. GLOBE Benefits the Environment:

Tell us about your GLOBE activities that have direct impact on the environment and increase the environmental awareness of the local community.

B. GLOBE is a Platform for Collaboration:

What collaborations were developed around GLOBE research and observations that you have done at school, national or international level?

C. Develops Skills and Competencies with GLOBE:

What skills did you build and enhance thanks to GLOBE? You can talk about your own experience as a student/teacher or about your class experience.

Deadline: July 15
